

Project Summary

McConnell Veterans Ranch

Field McConnell is a retired Marine and as a veteran himself and he has a vision to help Veterans worldwide. The Foundational motto for the McConnell Veterans Ranch is "Welcome home, soldier."

Field knows there is a missing link in the care we provide our Veterans through the Veterans Administration. There are Veterans all over the world, not just in the United States, who fought to keep their countries safe and free who are in need of healing. McConnell Veterans Ranch will provide them with a safe place to find healing where they can be with others who have suffered the same trauma, where they can share their experiences and find healing together.

McConnell Veterans Ranch will be a global network of ranches that will provide not only physical healing but mental and spiritual healing as well. Many of our Veterans are physically disabled, mentally disabled and suffering from PTSD and have lost hope. McConnell Veterans Ranch will be a place where our Veterans will be able to find the healing they need.

McConnell Veterans Ranch has a location selected for the 1st ranch. It was the home of T. Boone Pickens. The 64,809-acre ranch is located in Roberts County on prime Eastern Texas Panhandle ranch land, about 30 miles north of Pampa, Texas, and 85 miles northeast of Amarillo. It will be the MVC headquarters as well as the location of the first ranch to provide the care our Veterans so badly need. Several Board Members have already been selected as well as a lead doctor who is coordinating a medical staff.

This project is expected to expand to a global network of ranches as the project gets underway. There are plans for an array of traditional and alternative therapies to address the physical, mental, and spiritual health of the veterans. There are plans for natural medical therapies to the most advanced technological therapies. And of course there will be horseback riding and a place to connect with nature throughout the ranch. Some Veterans will learn new skills that can be taught at the ranch to equip them for life on their own once they find healing.

To accomplish this initial project and then replicate it Internationally, Field McConnell is

partnering with multiple people and organizations. I am placing FILL IN YOUR PERCENTAGE of my Exchange to bring the McConnell Veterans Ranch project forward.
