

## Don't Be a Lottery Loser!

I read the article about the 23 lottery losers that Bernie Beshere forwarded to Salty. What nightmares those stories were! I was astounded at how much money those lottery losers spent in such a short amount of time. How was that even possible? Did they believe their money would never run out? Did they think they knew everything they needed to know about handling money? Did they think that having instant money suddenly made them wiser?

In any case, I am very grateful that I acknowledged my ignorance early enough to avoid becoming another lottery loser statistic. Even those of us who are confident we will not wind up as lottery losers, some of us (myself included!) don't have enough knowledge to speak intelligently with our trust management teams. Like me, you may have stumbled across the Seeds of Wisdom Team and are currently taking advantage of the knowledge and expertise of the VIPs who are willing to donate their time to keep us from suffering fates like those 23 failed lottery winners.

### Goldilocks

Is Goldilocks a man? A woman? More than one person? Unfortunately, Goldilocks' identity must still remain a mystery for their protection. That alone tells us something. All that Salty (whose lips are sealed) has told me is that we should feel very honored to have Goldilocks helping us and we need only look at the list below to know that Goldilocks has a very impressive group of contacts!

Goldilocks has been asked by a South African CBI Consultant to teach classes in the virtual asset education system but was unable to due to time constraints. Several brokers and crypto talking heads have followed Goldilocks' writings for several years.

Goldilocks gets NO information from Dinarland. Below is a partial list of where they derive their information.

- Research
- Trading (traditional markets and the new QFS digital markets)
- Government and Pentagon contacts
- Wealth manager contact
- – banker who works with the Iraqi Minister of Finance
