

OMENERGY Humanitarian Project

Building a Network of Humanitarian Groups for The Up-Lifting of Humanity

Om Namah Shivaya

By the Creative Force of the Energy of the Ohm, as conduits or facilitators of this Source Energy, Ronald and Bobby hereby bring forth the OMENERGY Humanitarian Project:

MISSION STATEMENT for OMENERGY Humanitarian Project

Within the building of a network of Humanitarian Groups, OMENERGY has and will continue to reach out to humanitarians as a coordinator to bring humanitarian groups or individuals together for the purpose of coordinating and consolidating efforts, to ensure humanitarian funds have the maximum impact. OMENERGY has and will continue to build an infrastructure of professionals within fields required to accomplish the desired projects, including but not limited to, coordinators, financial advisors, lawyers and construction companies.

Within the preview of the OMENERGY Humanitarian Project, we will provide encouragement and education to many groups, including but not limited to, the homeless, veterans, pre-release and post prison inmates, to enhance their ability and opportunity to become a beneficial part of society. We intend to do this through partnering with complimentary Humanitarian Projects to increase education, skilled labor training, social training, psychological/spiritual harmony, and job placement, for the greatest beneficial impact for our culture, people and planet. We recognize and meet these needs to uplift our world. We uphold high integrity, honesty and care for people and our environment.

Within the foundation of OMENERGY, the desire is to rebuild World culture and stability, create productive jobs, and establish sustainability at every level of society.

POTENTIAL PARTNERS

Connecting Consciousness
Big Call Rebuild America
Omega Humanitarian Project
Rebuild America
Veterans Retreat Network
Child Abuse Recovery
Children's Hospital
Frank Siller - Tunnel 2 Towers
Mike Rowe - mikeroweWORKS Foundation
Liberty University

Dismantling and disposal of freeways and highways to return these areas to nature and into farms to feed the people.

Catastrophe Funding

First Responder Teams

Fires that displace people.

Weather related: tornados, hurricanes, floods, earthquakes, etc.

Medical bill coverage over Insurance in a traumatic accident.

Involve Public Health Nurse and Social Worker to oversee these cases

Pandemic Fund

Omenergy Humanitarian Project design

Each individual project will support each other in an ever-growing wagon wheel. Where possible, projects will include building the skilled trade workforce to facilitate the long-term need inherent in sustaining ongoing legacy projects. This includes building manufacturing facilities and developing skilled trade workforce for new Free Energy Technology, Quantum Frequency Healing Technology and transportation.

Notary Verification below for expressed intent to have Humanitarian funds donated to OMENERGY Humanitarian Project.
